

List of C Programs for LAB Record

1. C Program to find the ASCII value of a given character
2. C Program for swapping of the values of two variables using a third variable
3. C Program for swapping of the values of two variables without using a third variable
4. C Program to find the largest of three numbers
5. C Program to check the given number is odd or even.
6. C Program to check the given number is prime or not.
7. C Program to find whether its vowel or consonant using switch statement.
8. C Program for a simple calculator using switch statement.
9. C program to find the factorial of a given number.
- 10.C program on display the Fibonacci Series.
- 11.C Program to find the reverse of the digits of a given number.
- 12.C program to find whether the given number is Palindrome or not.
- 13.C program to read the marks [out of 100] for 10 students and count those who scored more than 60 (using array).
- 14.C program to find the average of n ($n < 10$) numbers using array.
- 15.C program to add two matrices using 2D Arrays
- 16.C program to find the factorial of a given number using function
- 17.C program on display the Fibonacci Series using function.
- 18.C program to find the factorial of a given number using recursion
- 19.C program on display the Fibonacci Series using recursion.
- 20.C program to print the value and address of a variable using pointer.
